

EDTA K₃
powder

EDTA three potassium parameter specifications

Packing specification: 500g/bottle

Appearance: white crystal powder

Properties: odorless, soluble in water, easy to absorb moisture

Molecular weight: 442.56

pH value: 7.3±1 (5% aqueous solution, g/ml),

Solubility in water: ≥60% (g/ml, 25°C).

Validity period: three years

Storage conditions: dry and sealed at room temperature.
